

Leveraging Built-in Functions and Complex Data Types

Janani Ravi

CO-FOUNDER, LOONYCORN

www.loonycorn.com

Overview

Invoke built-in functions in Python

Pass input arguments and store return values

Working with complex data types

Sequences with lists and tuples

Key-value pairs with dictionaries

List creation, modification and slicing operations

Dictionary creation, access and modification

Demo

**Performing operations using built-in
functions in Python**

Demo

Working with lists in Python

Demo

Working with tuples in Python

Demo

Working with dictionaries in Python

Summary

Invoke built-in functions in Python

Pass input arguments and store return values

Working with complex data types

Sequences with lists and tuples

Key-value pairs with dictionaries

List creation, modification and slicing operations

Dictionary creation, access and modification
